

# PROPOSED NEW ACADEMIC STRUCTURE: TOP LEVELS

Below is a proposed new academic structure referenced in Chancellor Carlo Montemagno’s 2017 State of the University Address. The “straw man” structure – including names of colleges and schools – is not final and is intended to be a starting point for discussion and feedback.

The proposed structure that follows includes the top level colleges and schools. Information about current and potential new programs that will be under the schools will be released on Thursday, Oct. 19, following an open forum.
